

OLDE WYTHE NEWS

A quarterly update of the Olde Wythe Neighborhood Association

Winter 2009 Volume 16, Number 1

www.oldewythe.com • www.oldewythehistory.com

JANUARY MEMBERSHIP MEETING TO FEATURE CITY REPRESENTATIVES AND '09 BOARD MEMBER ELECTIONS

A Council Representative will be the featured speaker at the January 27, 2009 General Membership Meeting of the Olde Wythe Neighborhood Association. This meeting will be held at Armstrong Elementary School, beginning at 7:00 pm. The vision City Council has for the next four years under the leadership of our new mayor Molly Ward will be shared. You can read some of the Council's vision at below.

John Veneziano, Director of Public Works for the City of Hampton will also speak at the meeting. Some of the topics Mr. Veneziano, will cover include how the City evaluates street pavement conditions and the drainage issues that concern Olde Wythe residents.

Public Works staff assist homeowners with the evaluation of drainage concerns. In Olde Wythe, Apple, Blair, Cherry, Claremont, Greenbriar, Hampton, Hollywood, Locust, Pear and Shatto are all scheduled for resurfacing between now and next June. Pavement and shoulder grades have already been reworked to eliminate standing water at several locations.

The Olde Wythe Neighborhood Association will be holding board elections for the upcoming 2009 year. The proposed slate of officers are as follows: President- Greg Siegel, 1st Vice President- Rusty Gates, 2nd Vice President- Doug Miller, Treasurer- Judy Carey, Secretary- Aleksandra Paunovic. If you are interested in becoming a district representative, please call Greg Siegel at 723-0483 before January 24. There are vacancies in districts 2, 3, 6, and 8. Check the map on the back page for the district boundaries.

City Council's Vision for Hampton & Olde Wythe - *The Next Four Years*"

The vision for Hampton continues to be, "Making Hampton the Most Livable City in Virginia." As part of the overall vision for the City, we have adopted the Hampton Community Plan which includes the Comprehensive Plan and the six Master Plans. The overarching themes of the Master Plans are the achievement of economic sustainability, community partnerships and engagement, preparing citizens for future success and quality of life.

In order to implement the Community Plan over the next four years, we must focus on creating better neighborhoods and districts, diversifying our housing choices and values, revitalizing commercial uses, changing perceptions, and identifying key public actions necessary to restore investor confidence.

In the Old Wythe Neighborhood section of the Kecoughtan Road Corridor, plans are underway to:

- Redefine the corridor primarily as a residential boulevard and neighborhood street
- Consolidate commercial land uses into existing shopping centers
- Support businesses that serve the neighborhoods
- Enhance connections to open spaces, waterfronts, schools, and other public gathering places
- Construct the first new school scheduled to open in September 2009 on the old Sentara (Hampton General Hospital) site
- Acquire a site to build a new fire station
- Dredge the Indian River for drainage purposes (currently in the permitting stage)
- Relocate the Wythe Fire Station
- Create a new corridor entrance along Kecoughtan from Newport News into Hampton
- Significantly enhance the Sussex Village neighborhood, streetscape improvements, and building renovations

Hampton truly is a community with a vision! Aggressive actions are in place in the Master Plan to achieve the specified goals. The priorities and time frames have been established and incorporated into the Capital Improvement Plan (CIP) process and the implementation of the actions needed to realize success is well underway. Together, we must partner with and engage citizens in building and sustaining the Hampton Community for the long term. We must all endeavor to communicate the good things about Hampton and delight in its magnificent resources and beauty.

President's Message

This newsletter marks the departure of Carol King as our OWNA Newsletter editor. I cannot praise Carol enough for her work in transforming our Newsletter into what City Hall recently called "the model for all other organizations/associations in Hampton to emulate". Many of you have commented how enjoyable and news worthy Carol's articles were. Carol not only wrote many of the articles, but she also took many of the pictures, researched the historical vignettes, and managed the advertising income which paid the majority of the newsletter printing and delivery costs. Carol, I'm sure I express the appreciation of all of the Olde Wythe residents when I sincerely thank you for the outstanding leadership and commitment you provided Olde Wythe through the newsletter. Thank you very much indeed for your devotion to our community and the community related improvements you personally made.

The Constitution of the OWNA limits the tenure of the President to three years thus this will be my last message to you as your Association's President. I have genuinely enjoyed the last three plus years as it has provided me the opportunity to focus on projects which have benefited all of Olde Wythe. To those of you that brought these projects to fruition I am deeply grateful for your enthusiasm and the high degree of community spirit you displayed. The neighborhood festivals, "History of Olde Wythe" publication, Battle of the Ironclads Run, seven historical markers, crime prevention/public works improvements, lighted and beautified "Welcome to Olde Wythe" sign, and the ongoing upgrade of Robinson Park all happened because Olde Wythe residents volunteered a great deal of their time and provided the leadership which has visibly improved our community. To each of you who have volunteered your time and enthusiasm during my tenure as President, I thank you very much indeed. Because of you the projects we started were completed and in a manner far above expectations.

My sincere thanks also go to the many City employees and senior staff who supported the improvement projects that the OWNA undertook over the past three years. They are too numerous to name individually but they routinely acted promptly on my emails, telephone calls and requests for assistance. With limited resources we have seen the Police Department, with direct assistance from the Public Works Department and The Neighborhood Office, significantly reduce crime to an all time low rate across all of Olde Wythe. Likewise the Department of Parks and Recreation has partnered with the OWNA to provide significant beautification and infrastructure improvements to Robinson Park in 2009.

Sincerely,
Michael C. McHenry
President

Old Wythe Named a Historic District

In September of 2008, our neighborhood was placed on the list of Virginia's Landmarks Register. This was a culmination of work between the City of Hampton, the State Department of Historic Resources and the volunteers of OWNA. The following is a brief overview from Pamela Schenian, Architectural Historian and CLG Program Coordinator, Department of Historic Resources as to what this designation means to the residents of Olde Wythe.

What is the Old Wythe Historic District?

The Old Wythe Historic District comprises four adjoining residential areas developed primarily in the late nineteenth through mid-twentieth centuries. It has two periods of significance—1849 and 1880 to 1953. There are 2019 contributing buildings and 272 non-contributing buildings in the district. A contributing building is one that falls within either period of significance and retains sufficient integrity. Contributing buildings are treated-for purposes of rehabilitation tax credits, easement donations, and recognition—as if individually listed on the National Register of Historic Places. A non-contributing building was either built outside the periods of significance or else was built within the period of significance and has lost sufficient integrity that it no longer has the appearance or feeling of being from the period of significance.

How Do I Know if My Property is Contributing or Non-contributing?

Once a property is listed on the National Register of Historic Places, the Virginia Department of Historic Resources (DHR) posts the signed nomination form at http://www.dhr.virginia.gov/registers/Cities/register_Hampton.htm. District nominations contain an address-by-address inventory, so you can search the inventory to determine the status of your house and outbuildings. Because the Old Wythe Historic District was only recently listed on the Virginia Landmarks Register and its listing on the National Register of Historic Places is pending, the nomination form for the Old Wythe Historic District has not yet been posted. Contact pam.schenian@dhr.virginia.gov to learn the status until the nomination is posted.

I've Heard about Tax Credits-What Are They?

Owners of non-income producing contributing buildings (i.e., owner-occupied residences) are eligible for 25% state preservation tax credits. Once the district is listed on the National Register, owners of income-producing contributing buildings are also eligible for 20% federal preservation tax credits. Owners of income-producing non-contributing buildings constructed before 1936 are eligible for a 10% tax credit. Tax credits off-set your tax liability on a dollar-to-dollar basis. The Virginia preservation tax credits may be spread over 10 years.

The application for tax credits is a three part process. Part 1 is the certification that a property is either individually listed on the Virginia Landmarks Register or is a contribut-

ing building in a listed historic district. In Part 2, the current condition and proposed work is documented. Part 3 is completed at the end of the project and documents the work completed. The forms may be found at http://www.dhr.virginia.gov/tax_credits/tax_credit_forms.htm. If you cannot use the tax credits (for example, due to a low tax liability or 501(c)3 status), you can syndicate the tax credits. For more information on tax credit syndication, contact pam.schenian@dhr.virginia.gov.

With the exception of the 10% tax credit for income-producing non-contributing buildings, tax credit projects must be performed in accordance with the Secretary of the Interior's Standards for Rehabilitation http://www.nps.gov/hps/tps/standguide/rehab/rehab_index.htm. In simplest terms, the Standards recommend that items be repaired, rather than replaced, if feasible. If items need to be replaced, they should be replaced in-kind, in other words, with components that match in material and appearance. The Standards place greater emphasis on the exterior than the interior and, on the interior, on "public" spaces (living room, dining room, floor plans) over "private" spaces (kitchens, bathrooms). Note that the Standards recommend, not require, so it is recognized that there may be a compelling engineering, health and safety, accessibility, or other factor that makes a "not recommended" action acceptable on a case-by-case basis. The tax credit program is administered through the Richmond DHR office. Contact Chris Novelli at Chris.Novelli@dhr.virginia.gov to discuss the specifics of your proposed project.

Local Tax Exemption

Regardless of the historic status of your property, Hampton offers a local property tax exemption for the substantial renovation (more than \$5000) of any building over 25 years old. The tax exemption lasts for six years. For more information about this program, see http://www.hampton.gov/assessor/tax_relief.html.

History Website Coming Closer to Reality

For the last few months, a group of your neighbors has been working to create a History Website so we can preserve and share our neighborhood history. If you would like to share your stories and photos of Wythe, all you need to do is log on to www.oldewythehistory.com and the site will tell you what you need to do. Because we are making history every day, we are not only looking for stories and photos from time gone by, but also current photos and stories that will become part of the neighborhood history in years to come. The site will go live with stories and photos by March 1, 2009. Now is the time to have your memories of Wythe included on this everlasting time capsule.

Fun For All at the OWNA Fall Festival '08

The Annual Olde Wythe Fall Festival was held at Robinson Park on Sunday, October 26th. The weather was beautiful and made for a perfect day to come to the park and let the kids run and play while mom and dad enjoyed a warm cup of chili and the music of Me and Jo. Families challenged each other to sack and three-legged races and local authors shared their knowledge of history and read to the children. Thanks to everyone who came out and made this years Fall Festival a success.

Olde Wythe T-Shirt

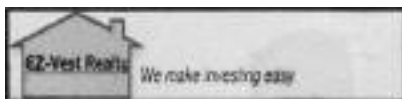

Show your pride in Olde Wythe with a new logo t-shirt now available at the Oasis Restaurant. Shirts are \$10.00 each and available in sizes Large and X-Large.

Wythe Wackers Have Winning Season

What began as a casual conversation amongst friends this past July, resulted in the formation of The Wythe Wackers. The 16 member slow pitch men's softball team entered themselves into the Hampton Parks and Rec D League Fall season which played all games at Briarfield Park. Having an average age of just over 40, the team was determined not to set expectations too high, setting two rules for themselves: #1- Have Fun, and #2 - Don't Get Hurt. While the team was successful in living up to Rule #1, they unfortunately failed miserably at Rule #2. In the first practice players were already getting hurt. One was hit with a line drive just above the eye, one took a line drive off the ankle and one did a somersault over the stationary park bench and landed face first on the concrete walking path while chasing down a fly ball. Rule #2 was officially violated within 1 hour!

The twelve game regular season began in mid-September. The team played double headers each Thursday night. With a 6-0 start, the Wackers surprised themselves and their wives. The Wackers were quickly brought back down to earth by losing back-to-back double headers. They ended the regular season with a record of 8 wins and 4 losses. With Rule #2 violated each week, the list of injuries sounds more like what you would expect to hear from the NFL. The Wackers made the playoffs as the #3 seed. They shocked the #2 seed with a 6 run come-from-behind victory in the last inning to win 12-9, earning the Wackers a spot in the Championship game.

It's important to emphasize how vital Rule #1 became as the Wythe Wackers fell behind 16-0 in the second inning of the Championship game. After the final out, the Wackers cheered in relief, stumbled back to the dugout, and started the celebration of their role as "Good Time" Runners-Up. Unexpectedly, the city presented the players with individual trophies and an impressive team trophy. Despite the "week-end warrior" injuries, everyone had a great time. For a team that was assembled for some social fun, winning some games was a nice bonus. It was especially unique that 15 of the 16 players live in Wythe. Way to go Wackers!

OWNA Membership Drive Starts February 1st

The Board members of the OWNA get a lot of questions on why someone should join the Neighborhood Association. So why join? Well, the \$10.00 we collect annually from each of our members goes to help keep the Association on sound financial footing. But more than that, our membership roster is an important resource for volunteers and neighborhood advocates. It also lends legitimacy to our negotiations with the city staff and other community groups when we bring issues affecting the neighborhood to their attention. Any half dozen people can get together and call themselves a board, but with an active, dues paying membership OWNA's voice matters when it comes to issues of concern to the Greater Wythe community.

With your help, our voice can be even more persuasive. If you have not been a member or you been a former member, please take a minute and complete the membership application on page 10 of this newsletter. If you were a 2008 member, we will be sending out by mail your new application form for the 2009 fiscal year. Your membership really does make a difference.

Master Gardner Corner

As we head into the depths of winter, it's time to make plans for spring. Take a quick look around the garden and note the plants that will need pruning. The basic rule is to prune in February to March for summer blooming plants, but to wait until after the spring bloomers are finished blooming before cutting them back. You will also get a jump start on your seedlings if you plan now when to start the seed flats indoors. This is a great way to save money on bedding plants. Finally, think ahead to the Beautiful Yard Contest. Nominations will be requested in the Spring OWNA Newsletter, with judging just before the April General Membership Meeting. You can be looking around for likely candidates already, or planning the winning strategy for your own entry. Feel free to contact Carol King at 327-0414 or cdkinggardener@hotmail.com with suggestions and questions.

Long-Time Merchant and Neighbor: Glenn Furniture

When you walk in to Glenn Furniture on at 1803 Kecoughtan Rd, you are participating in the history of the neighborhood. Eddie Glenn or his mother Ann will greet you, carrying on the tradition established by Clarence Glenn, father and husband. Clarence's first company, in 1957, was C&G Supply Company, door-to-door in our neighborhood, based upon his contacts from selling insurance policies in people's homes. (It was at Roger's Confectionery, 2501 Oak Ave, that Clarence met Ann.) The first actual furniture store was set up in 1963 at the corner of Oak Ave and 25th St (Kecoughtan Rd in NN), when he ran out of storage at home. After his business outgrew the Oak Ave space in about 1968, he set up at 26th St and Jefferson Ave in NN, until the changing neighborhood and I-664 construction pushed him to come back to home turf in 1975, near his home at 100 Harbor Drive in Olde Wythe. Eddie came into the business that year and worked alongside his father until the mid-1990s when he assumed leadership at the store, continuing the tradition of personal service and local credit of the business' 50-year history. Patrons tend to be neighbors, greeted by name — if they're not friends yet, they will be.

The Hunt for Hampton History Focuses on Education for 2009

The City of Hampton and numerous community partners will host the 3rd annual Hunt for Hampton History: Education on Saturday May 2, 2009 at the Hampton Roads Convention Center from 9 am to 3 pm. This event is being held in anticipation of Hampton's 400th anniversary celebration in 2010.

The event will showcase the history of Hampton's public, private, and university- level schools as well as pay tribute to the teachers, principals, and other school employees who have impacted education in our city. Other exhibits will focus on sports, Hampton's peaceful integration, and the connection between the schools and the neighborhoods.

Hampton is actively seeking vendors, sponsors, and contributors to the Hunt for Hampton History. If you would like to share your Hampton school history, contact 726-5437. If you would like to share your story of "how an educator shaped your life" please submit this to emcmahon@hampton.gov or Hunt for Hampton History, c/o Erin McMahon, 22 Lincoln Street, 5th Floor, Hampton, VA 23669

Wythe Pool Update

The Olde Wythe Pool had an excellent season in 2008 with a record number of memberships (over 100) and finished the year with a little money in the bank. Unfortunately, the pool filter failed near the end of the season as the old steel tank finally rusted through and is beyond repair. While we have an industrious member leading a project to replace the filter with volunteer labor, we do not have enough money to cover the \$15,000 project. The pool needs approximately \$10,000 to complete the project and prepare for opening in 2009. The pool is looking for donations to support this project and keep this vital Olde Wythe asset operating for years to come. You can contribute via the Hampton Neighborhood Development Partnership and your donation will be fully tax deductible. Send your donations to HNDP, c/o Hampton Neighborhood Office, 22 Lincoln Street, Hampton, VA 23669.

Neighborhood Renovation Slashes Energy Use

Wouldn't you like to cut the energy consumption and CO2 output of your home by three-quarters? Sounds amazing, doesn't it? Bryan Heldreth did just that as a result of the total renovation of his new home at 175 Algonquin Road. In January, he started tearing out walls from a long-vacant 1930 sq ft duplex built in 1940. The goal of the project was energy efficiency on a budget of a 24-year-old professional home renovator.

The home now boasts new windows, a digital thermostat, spray foam insulation well beyond building code requirements, a foam roof, all energy star appliances, energy efficient water heating, massive duct work improvements, HVAC upgrades, creative lighting solutions, and many other elements key to the efficiency of the structure. Bryan has used an industry energy use calculator (and his utility bills) to determine that the house consumes just a quarter of the energy it did before.

Bryan contributes a few nuggets to our local green thinking:

HOT HOT HOT! If the thermostat in every house in America were lowered 1 degree Fahrenheit during the winter, the nation would save 230 million barrels of crude oil.

USE A RAKE, FOR GOODNESS' SAKE! One hour using a gas-operated leaf blower produces the same amount of greenhouse gasses as a car driven 4,400 miles - that's round trip from New York City to Salt Lake City.

SHOWER POWER! If Olde Wythe's 1600 member families were to spend 1 minute less each day in the shower over their lifetimes, they would save over 512,000 gallons of water - enough to provide all the water for his home for 17 years.

BATH PARTY! If every Olde Wythe family collected 1 gallon of water once a week while waiting for the shower to get hot (use it to water your plants) the total savings would be 266,000 gallons - enough to meet his house's water needs for 9 years.

VIRTUAL PAYMENT! If every OWNA adult member switched to receiving just 1 bill as an electronic statement instead of a paper one, the annual savings would be enough sheets to completely blanket this property 2.5 times a year.

STRAIGHT FLUSH! If homebuilders installed one dual-flush toilet instead of a standard low-flow toilet in every new house remodeled in 2008, they would save 1.65 billion gallons of water.

Thanks to Bryan for contributing both to the newsletter and to the environment. To contact him for more information on "going green" you can call him at 879-2371.

Robinson Park Curb Appeal

Representatives of the Olde Wythe board, along with a couple of concerned residents, met with the City of Hampton's Park and Recreation Director, Jim Wilson, to develop a plan to make Robinson Park more inviting and safe for all who use it. Topics that were covered included:

- Developing a park plan that will address the removal of unsightly trees and shrubbery and the selection of the right trees for the park, as well as the right place for their planting.
- Improving site drainage and leveling of the ground.
- Making over the Kenny Wallace Memorial
- Installing a locked electrical outlet for Olde Wythe events
- Rehabbing the bandstand in the center of the park
- The placement of a Robinson Park sign

Also discussed was the ongoing maintenance of the park, including grass mowing. Mr. Wilson agreed to work on our list of desired improvements and that work is slated to begin shortly, if it has not already begun. It is our hope to make the park a better place to enjoy the outdoors.

We are always updating the site with news you can use from the city and from the board of the Olde Wythe Neighborhood Association

Candidates Debate at the Fall GM Meeting

The October OWNA General Membership meeting featured a lively debate between incumbent candidate Thelma Drake and her opponent Glenn Nye who were running for the Virginia 2nd District Congressional seat. Since this was the only such debate in Hampton, a good deal of press coverage was on hand including the Daily Press, Virginian-Pilot, Al-Jazeera English, and a freelance camera crew. Drake spoke of her support for Fort Monroe's transition planning and for a novel national sales tax ("fair tax") idea. Nye questioned the negative impact of the latter idea and promised to be a nonpartisan representative who will be sensitive to local military relationships. In the November election, Glenn Nye defeated Thelma Drake by a narrow margin.

Wright Choices Brings the Newsletter to You

This year our newsletters will be delivered to your door by Wright Choices, Inc., Mobile Work Crew. Wright Choices employees persons with disabilities and provides quality services to meet the needs of local communities and businesses. The crews are supervised at all times by a professional employment specialist. They charge only what it costs to pay the crew. Not only will you be getting the service you expect but you will be providing opportunities for paid employment to persons with disabilities. Services they also provide are Grounds Maintenance and Yard Work, Housekeeping, Janitorial, & Clean-up, Flyer/Newsletter Distribution and Odds and Ends jobs. If you would like more information on Wright Choices services you can contact Kim at 236-2809.

A Little Work Goes a Long Way

This past fall, Boy Scout Ryan Thompson approached the OWNA board with a proposal to redo the island at Pear Avenue and Chesapeake Avenue as his project for earning his Eagle Scout. Ryan worked with Olde Wythe resident Jo Harding in developing a plan that included low maintenance plants and a way for easy overall maintenance of the island. Ryan led a team of scouts in removing the old plants, cleaning out the bed, leveling the area, and planting the new plants. The city has agreed to supply the stone that will go into the island, surrounding the planting beds. Well done Ryan. We appreciate your hard work.
